Immer wieder merke ich, dass Mitarbeiterinnen anderer Stationen unsere Arbeit für angenehmer und weniger fordernd halten als ihre eigene. Prednisolon 4mg 9.6 - ..81 Per pill. Abk.: arteriell Artbildung f: speciation, species formation Artelan Inulin nt: Artemisinin Artelfakt m: artefact, artifact Artteilgen adj: specific, species-specific Artelmilsia absinthilum f: wormwood, Artemisia absinthum Artelmilsila cilna f: Artemisia cina Artelmilsilae vulgalris herba f: mugwort Artelmilsilae vulgalris radix f: mugwort root Artelmilsila vulgalris f: mugwort Artelmilsilnin nt: artemisinin Arten polpullaltion f: species population Artenlschutz m: species protection Artentstellung f: speciation, species formation Artenvielfalt f: species diversity Artelrelnol nt: levarterenol, arterenol, norepinephrine, noradrenalin, noradrenaline Artlerlhaltung adj: species-preserving Artlerlhaltung f: species preservation Arteri-, arteri- prf.: Arterio Artelria f, pl -rilae: artery Arteria acetabuli: acetabular artery, acetabular branch of obturator artery Arteriae alveolares superiores anteriores: anterior superior alveolar arteries, anterior dental arteries Arteria alveolaris inferior: inferior alveolar artery, inferior dental artery, mandibular artery Arteria alveolaris superior posterior: posterior superior alveolar artery, superior dental artery Arteria angularis: angular artery Arteria appendicularis: appendicular artery, vermiform artery Arteria arcuata: arcuate artery of foot, metatarsal artery Arteriae arcuatae renis: arterial arches of kidney, arcuate arteries of kidney, arciform arteries of kidney Arteria ascendens: ascending artery Arteria auricularis posterior: posterior auricular artery Arteria auricularis

profunda: deep auricular artery
Arteria axillaris: axillary artery
Arteria azygos vaginae: azygous artery of vagina, vaginal branch of uterine artery
Arteria basilaris: basilar artery, basal artery, basilar trunk
Arteria brachialis: brachial artery
Arteria brachialis superficialis: superficial brachial artery
Arteriae bronchiales: bronchial arteries, bronchial branches of thoracic aorta
Arteria buccalis: buccal artery, buccinator artery
Arteria bulbi penis: artery of bulb of penis
Arteria bulbi vestibuli: artery of bulb of vestibule of vagina
Arteria caecalis anterior: anterior cecal artery
Arteria caecalis posterior: posterior cecal artery
Arteria callosomarginalis: callosomarginal artery
Arteria canalis pterygoidei: artery of pterygoid canal
Arteriae capsulares: capsular branches of renal artery, adipose arteries of kidney, nutrient arteries of kidney
Arteriae caroticotympanicae: caroticotympanic arteries
Arteria carotis communis: common carotid, common carotid artery, cephalic artery
Arteria carotis externa: external carotid, external carotid artery
Arteria carotis interna: internal carotid, internal carotid artery
Arteria caudae pancreatis: caudal pancreatic artery
Arteriae centrales anterolaterales: anterolateral central arteries
Arteriae centrales anteromediales: anteromedial central arteries
Arteriae centrales posterolaterales: posterolateral central arteries
Arteriae centrales posteromediales: posteromedial central arteries
Arteria centralis retinae: central artery of retina, Zinns artery
Arteriae cerebri: cerebral arteries
Arteria cerebri anterior: anterior cerebral artery
Arteria cerebri media: middle cerebral artery
Arteria cerebri posterior: posterior cerebral artery
Arteria cervicalis ascendens: ascending cervical artery
Arteria cervicalis profunda: deep cervical artery
Arteria cervicalis superficialis: superficial cervical artery, superficial branch of transverse cervical artery
Arteria choroidea anterior: anterior choroidal artery
Arteriae ciliares anteriores: anterior ciliary arteries
Arteriae ciliares posteriores breves: short posterior ciliary arteries
Arteriae ciliares posteriores longae: long posterior ciliary arteries
Arteria circumflexa femoris lateralis: lateral circumflex femoral artery
Arteria circumflexa femoris medialis: medial circumflex femoral artery
Arteria circumflexa humeri anterior: anterior humeral circumflex artery
Arteria circumflexa humeri posterior: posterior humeral circumflex artery
Arteria circumflexa ilium profunda: deep circumflex iliac artery
Arteria circumflexa ilium superficialis: superficial circumflex iliac artery
Arteria circumflexa scapulae: circumflex artery of scapula
Arteria colica dextra: right colic artery
Arteria colica media: middle colic artery
Arteria colica sinistra: left colic artery
Arteria collateralis media: middle collateral artery
Arteria collateralis radialis: radial collateral artery
Arteria collateralis ulnaris inferior: inferior ulnar collateral artery
Arteria collateralis ulnaris superior: superior ulnar collateral artery
Arteria comitans nervi ischiadici: accompanying artery of ischiadic nerve
Arteria comitans nervi mediani: accompanying artery of median nerve
Arteria communicans anterior: anterior communicating artery (of cerebrum)
Arteria communicans posterior: posterior communicating artery
Arteriae conjunctivales anteriores: anterior conjunctival arteries
Arteriae conjunctivales posteriores: posterior conjunctival arteries
Arteria coronaria: coronary artery of heart, coronary, coronaria, coronary artery
Arteria coronaria dextra: right coronary artery of heart
Arteria coronaria sinistra: left coronary artery of heart
Arteria cremasterica: cremasteric artery
Arteria cystica: cystic artery
Arteria descendens genus: descending genicular artery
Arteriae digitales: digital arteries
Arteriae digitales dorsales manus: dorsal digital arteries of hand
Arteriae digitales dorsales pedis: dorsal digital arteries of foot
Arteriae digitales palmares communes: common palmar digital arteries
Arteriae digitales palmares propriae: proper palmar digital arteries
Arteriae digitales plantares communes: common plantar digital arteries
Arteriae digitales plantares propriae: proper plantar digital arteries
Arteria dorsalis clitoridis: dorsal artery of clitoris
Arteria dorsalis nasi: dorsal nasal artery, external nasal artery, dorsal artery of nose
Arteria dorsalis pedis: dorsal artery of foot
Arteria dorsalis penis: dorsal artery of penis
Arteria dorsalis scapulae: dorsal scapular artery
Arteria ductus deferentis: deferential artery, artery of deferent duct, artery of ductus deferens
Arteriae encephali: cerebral arteries
Arteria epigastrica inferior: inferior epigastric artery
Arteria epigastrica superficialis: superficial epigastric artery
Arteria epigastrica superior: superior epigastric artery
Arteriae episclerales: episcleral arteries
Arteria ethmoidalis anterior: anterior ethmoidal artery
Arteria

ethmoidalis posterior: posterior ethmoidal artery
Arteria facialis: facial artery, external maxillary artery
Arteria femoralis: femoral artery, crural artery
Arteria fibularis: peroneal artery, fibular artery
Arteria flexurae dextrae: artery of right colic flexure
Arteria frontobasalis lateralis: lateral frontobasal artery
Arteria frontobasalis medialis: medial frontobasal artery
Arteria gastrica dextra: right gastric artery
Arteriae gastricae: gastric arteries
Arteriae gastricae breves: short gastric arteries
101A
Arteria gastrica posterior: posterior gastric artery
Arteria gastrica sinistra: left gastric artery
Arteria gastroduodenalis: gastroduodenal artery
Arteria gastroepiploica dextra: Arteria gastrointestinalis dextra
Arteria gastroepiploica sinistra: Arteria gastrointestinalis sinistra
Arteria gastrointestinalis dextra: right gastro-omental artery
Arteria gastrointestinalis sinistra: left gastro-omental artery
Arteria glutea inferior: inferior gluteal artery
Arteria glutea superior: superior gluteal artery
Arteriae helicinae penis: helicine arteries of penis
Arteria hepatica communis: common hepatic artery
Arteria hepatica propria: proper hepatic artery, hepatic artery, hepatic funiculus of Rauber
Arteria hyaloidea: hyaloid artery
Arteria hypophysialis inferior: inferior hypophysial artery
Arteria hypophysialis superior: superior hypophysial artery
Arteriae ileales: ileal arteries
Arteria ileocolica: ileocolic artery
Arteria iliaca communis: common iliac artery
Arteria iliaca externa: external iliac artery, anterior iliac artery
Arteria iliaca interna: internal iliac artery, hypogastric artery, posterior pelvic artery
Arteria iliolumbalis: iliolumbar artery
Arteria inferior anterior cerebelli: anterior inferior cerebellar artery
Arteria inferior lateralis genus: lateral inferior genicular artery
Arteria inferior medialis genus: medial inferior genicular artery
Arteria inferior posterior cerebelli: posterior inferior cerebellar artery
Arteria infraorbitalis: infraorbital artery
Arteriae insulares: insular arteries
Arteriae intercostales posteriores: posterior intercostal arteries
Arteria intercostalis posterioris prima: first posterior intercostal artery
Arteria intercostalis posterioris secunda: second posterior intercostal artery
Arteria intercostalis suprema: highest intercostal artery
Arteriae interlobares renis: interlobar arteries of kidney
Arteriae interlobulares hepatis: interlobular arteries of liver
Arteriae interlobulares renis: interlobular arteries of kidney
Arteria interossea anterior: anterior interosseous artery
Arteria interossea communis: common interosseous artery
Arteria interossea posterior: posterior interosseous artery
Arteria interossea recurrens: recurrent interosseous artery
Arteriae intestinales: intestinal arteries
Arteriae jejunaes: jejunal arteries
Arteria juxtacolica: Arteria marginalis coli
Arteria labialis inferior: inferior labial artery
Arteria labialis superior: superior labial artery, superior 102 or coronary artery
Arteria labyrinthi: labyrinthine artery
Arteria lacrimalis: lacrimal artery
Arteria laryngea inferior: inferior laryngeal artery
Arteria laryngea superior: superior laryngeal artery
Arteria lienalis: Arteria splenica
Arteria ligamenti teretis uteri: artery of round ligament of uterus
Arteria lingualis: lingual artery
Arteria lobi caudati: artery of caudate lobe
Arteriae lumbales: lumbar arteries
Arteriae lumbales imae: lowest lumbar arteries
Arteria malleolaris anterior lateralis: lateral anterior malleolar artery
Arteria malleolaris anterior medialis: medial anterior malleolar artery
Arteria marginalis coli: marginal artery of colon
Arteria masseterica: masseteric artery
Arteria maxillaris: maxillary artery, internal maxillary artery, deep facial artery
Arteria media genus: middle genicular artery
Arteria medullaris segmentalis: segmental medullary artery
Arteriae membri inferioris: arteries of the lower extremity
Arteriae membri superioris: arteries of the upper extremity
Arteria meningeae anterior: anterior meningeal artery
Arteria meningeae media: middle meningeal artery
Arteria meningeae posterior: posterior meningeal artery
Arteria mentalis: mental branch of inferior alveolar artery, mental artery
Arteriae mesencephalicae: mesencephalic arteries
Arteria mesenterica inferior: inferior mesenteric artery
Arteria mesenterica superior: superior mesenteric artery
Arteriae metacarpales: metacarpal arteries
Arteriae metacarpales dorsales: dorsal metacarpal arteries
Arteriae metacarpales palmares: palmar metacarpal arteries
Arteriae metatarsales: metatarsal arteries
Arteriae metatarsales dorsales: dorsal metatarsal arteries
Arteriae metatarsales plantares: plantar metatarsal arteries
Arteriae musculares: muscular branches of ophthalmic artery
Arteria musculophrenica: musculophrenic artery
Arteriae nasales posteriores laterales: posterior lateral nasal arteries
Arteriae nutriciae/nutrientes femoris: nutrient arteries of femur
Arteriae

nutriciae/nutrientes humeri: nutrient arteries of humerus
Arteria nutricia/nutriens: nutrient artery
Arteria nutricia/nutriens fibulae: nutrient artery of fibula
Arteria nutricia/nutriens radii: nutrient artery of radius
Arteria nutricia/nutriens tibiae: nutrient artery of tibia
Arteria nutricia/nutriens ulnae: nutrient artery of ulna
Arteria obturatoria: obturator artery
Arteria occipitalis: occipital artery
Arteria occipitalis lateralis: lateral occipital artery
Arteria occipitalis medialis: medial occipital artery
Arteria ophthalmica: ophthalmic artery
Arteria orbitofrontalis lateralis: Arteria frontobasalis lateralis
Arteria orbitofrontalis medialis: Arteria frontobasalis medialis
Arteria ovarica: ovarian artery, tubo-ovarian artery, aortic uterine artery
Arteria palatina ascendens: ascending palatine artery
Arteria palatina descendens: descending palatine artery
Arteriae palatinae minores: lesser palatine arteries
Arteria palatina major: greater palatine artery
Arteriae palpebrales laterales: lateral palpebral arteries
Arteriae palpebrales mediales: medial palpebral arteries
Arteria pancreatica dorsalis: dorsal pancreatic artery
Arteria pancreatica inferior: inferior pancreatic artery
Arteria pancreatica magna: great pancreatic artery
Arteriae pancreaticoduodenales: pancreaticoduodenal arteries
Arteria pancreaticoduodenalis inferior: inferior pancreaticoduodenal artery
Arteria pancreaticoduodenalis superior anterior: anterior superior pancreaticoduodenal artery
Arteria pancreaticoduodenalis superior posterior: posterior superior pancreaticoduodenal artery
Arteria parietalis anterior: anterior parietal artery
Arteria parietalis posterior: posterior parietal artery
Arteriae perforantes: perforating arteries
Arteria pericallosa: pericallosal artery
Arteria pericardiophrenica: pericardiophrenic artery
Arteria perinealis: perineal artery
Arteriae perirenales: Arteriae capsulares
Arteria peronea: Arteria fibularis
Arteria pharyngea ascendens: ascending pharyngeal artery
Arteriae phrenicae superiores: superior phrenic arteries
Arteria phrenica inferior: inferior phrenic artery
Arteria plantaris lateralis: lateral plantar artery
Arteria plantaris medialis: medial plantar artery
Arteria plantaris profunda: deep plantar artery
Arteriae pontis: pontine arteries, arteries of pons, pontine branches of basilar artery
Arteria poplitea: popliteal artery
Arteria prefrontalis: prefrontal artery
Arteria prepancreatica: prepancreatic artery
Arteria princeps pollicis: principal artery of thumb
Arteria profunda brachii: deep brachial artery
Arteria profunda clitoridis: deep artery of clitoris
Arteria profunda femoris: deep femoral artery, deep artery of thigh
Arteria profunda linguae: deep lingual artery, deep artery of tongue, ranine artery
Arteria profunda penis: deep artery of penis
Arteria pudenda externa profunda: deep external pudendal artery
Arteria pudenda externa superficialis: superficial external pudendal artery
Arteria pudenda interna: internal pudendal artery
Arteria pulmonalis dextra: right pulmonary artery
Arteria pulmonalis sinistra: left pulmonary artery
Arteria radialis: radial artery
Arteria radialis indicis: radial artery of index finger
Arteria radicularis anterior: anterior radicular artery
Arteria radicularis posterior: posterior radicular artery
Arteria rectalis inferior: inferior rectal artery, inferior hemorrhoidal artery
Arteria rectalis media: middle rectal artery
Arteria rectalis superior: superior rectal artery
Arteria recurrens radialis: radial recurrent artery
Arteria recurrens tibialis anterior: anterior tibial recurrent artery
Arteria recurrens tibialis posterior: posterior tibial recurrent artery
Arteria recurrens ulnaris: ulnar recurrent artery
Arteria renalis: renal artery, emulgent artery
Arteriae retroduodenales: retroduodenal arteries
Arteriae sacrales laterales: lateral sacral arteries
Arteria sacralis mediana: median sacral artery
Arteriae segmentales pulmones: segmental arteries of lung
Arteria segmenti hepatici: segmental arteries of liver
Arteria segmenti renalis: segmental arteries of kidney
Arteriae sigmoideae: sigmoid arteries
Arteria sphenopalatina: sphenopalatine artery
Arteria spinalis anterior: anterior spinal artery
Arteria spinalis posterior: posterior spinal artery
Arteria splenica: splenic artery, lienal artery
Arteria stylomastoidea: stylomastoid artery
Arteria subclavia: subclavian artery
Arteria subcostalis: subcostal artery
Arteria sublingualis: sublingual artery
Arteria submentalis: submental artery
Arteria subscapularis: subscapular artery
Arteria sulci centralis: artery of central sulcus
Arteria sulci postcentralis: artery of postcentral sulcus
Arteria sulci precentralis: artery of precentral sulcus
Arteria superior cerebelli: superior cerebellar artery
Arteria superior lateralis genus: lateral superior genicular artery
Arteria superior medialis genus: medial superior genicular artery
Arteria

supraduodenalis: supraduodenal artery
Arteria supraorbitalis: supraorbital artery
Arteriae suprarenales superiores: superior suprarenal arteries
Arteria suprarenalis inferior: inferior suprarenal artery
Arteria suprarenalis media: middle suprarenal artery
Arteria suprascapularis: suprascapular artery
Arteria supratrochlearis: supratrochlear artery
Arteriae surales: sural arteries
Arteriae tarsales mediales: medial tarsal arteries
Arteria tarsalis lateralis: lateral tarsal artery
Arteria temporalis anterior: anterior temporal artery
Arteria temporalis media: middle temporal artery
Arteria temporalis profunda anterior: anterior deep temporal artery
Arteria temporalis profunda posterior: posterior deep temporal artery
Arteria temporalis superficialis: superficial temporal artery
Arteria testicularis: testicular artery, internal spermatic artery, funicular artery
Arteria thoracica interna: internal thoracic artery, internal mammary artery
Arteria thoracica lateralis: lateral thoracic artery
Arteria thoracica superior: superior thoracic artery
Arteria thoracoacromialis: thoracoacromial artery
Arteria thoracodorsalis: thoracodorsal artery
103A
Arteria basilaris-Aneurysma A
Arteria thyroidea ima: lowest thyroid artery
Arteria thyroidea inferior: inferior thyroid artery
Arteria thyroidea superior: superior thyroid artery
Arteria tibialis anterior: anterior tibial artery
Arteria tibialis posterior: posterior tibial artery
Arteria transversa cervicis: Arteria transversa colli
Arteria transversa colli: transverse artery of neck
Arteria transversa faciei: transverse artery of face
Arteria tympanica anterior: anterior tympanic artery
Arteria tympanica inferior: inferior tympanic artery
Arteria tympanica posterior: posterior tympanic artery
Arteria tympanica superior: superior tympanic artery
Arteria ulnaris: ulnar artery
Arteria umbilicalis: umbilical artery
Arteria urethralis: urethral artery
Arteria uterina: uterine artery, fallopian artery
Arteria vaginalis: vaginal artery
Arteria vertebralis: vertebral artery
Arteriae vesicales superiores: superior vesical arteries
Arteria vesicalis inferior: inferior vesical artery
Arteria vestibularis anterior: Arteria vestibuli
Arteria vestibuli: vestibular artery
Arteria zygomaticoorbitalis: zygomatico-orbital artery
Arteria basilaris-Aneurysma nt: basilar artery aneurysm
Arteria-basilaris-Insuffizienz f: basilar insufficiency
Arteria-basilaris-Thrombose f: basilar artery thrombosis
Arteria-carotis-externa-Stenose f: external carotid artery stenosis
Arteria-carotis-interna-Stenose f: internal carotid artery stenosis
Arteria hepatica-Vena portae-Fistel f: hepatic artery-portal venous fistula
Arterielrillaltalton f: hematoma, f: hematoma, arterialization
Arterial-switch-Operation f: arterial switch
Arteria-mesenterica-superior-Kompressionssyndrom nt: superior mesenteric artery syndrome
Arteria-profunda-femoris-Plastik f: profundoplasty, profundoplasty
Arteria-pulmonalis-Katheter m: pulmonary artery catheter, pulmonary catheter
Arteria-radialis-Lappen m: forearm flap
Arteria radialis-Vena cephalica-Shunt m: radiocephalic (arteriovenous) fistula/shunt
Arteria-spinalis-anterior-Syndrom nt: anterior spinal artery syndrome
Arteria-superior-cerebelli-Syndrom nt: superior cerebellar artery syndrome
Arteria-vertebralis-Insuffizienz f: vertebrobasilar insufficiency
Arterielrie f: artery in an artery (lying) endarterialum eine Arterie herum (lying)
periarterialkleine Arterie: arteriole, arteriola, precapillary artery
Arterien der oberen Extremität: arteries of the upper extremity
perforierende Arterien: perforating arteries
Arterien der unteren Extremität: arteries of the lower extremity
Arterie vom elastischen Typ: elastic artery, artery of elastic type, elastic vessel
Arterie vom muskulären Typ: muscular artery, artery of muscular type
Arterielrielektolie f: arteriectopia
Arterielrielektalsie f: arterial ectasia, arteriectasis, arteriectasia
104
Arterielrielektomie f: arteriectomy, arterectomy
Arterielrielell adj: relating to an artery, arterial, f: arterial anastomosis
Arterielrillenarterielrill f: arterial erosion
Arterielrillenarterielrillverschluss m: branch retinal artery occlusion
Arterielrillenblut nt: arterial blood, oxygenated blood
Arterielrillenarterielrillgie f: arterial surgery
Arterielrillenarterielrilldruck m: arterial pressure
diastolischer Arterielrillendruck: diastolic arterial pressure, diastolic pressure
systolischer Arterielrillendruck: systolic arterial pressure, systolic pressure
Arterielrillenarterielrilltalsie f: arterial ectasia, arteriectasis, arteriectasia
Arterielrillenarterielrilltolpie f: f: Arteriitis
Arterielrillenarterielrillkrankung f: arteriopathy
Arterielrillenarterielrillffnung f: f: adj: f: arterial ectasia, arteriectasis, arteriectasia
diffuse Arterielrillenarterielrillweiterung: arterial ectasia, arteriectasis, arteriectasia
Arterielrillenarterielrillgeflecht nt: arterial network, arterial rete, arterial rete mirabile
Arterielrillenarterielrillgeflecht des Akromions: acromial rete, acromial network
Arterielrillenarterielrillgeflecht am Auenknöchel: lateral

malleolarnetwork, lateral malleolar reteArteriengeflecht des Auenknchels: lateral malleolarnetwork, lateral malleolar reteueres Arteriengeflecht der Iris: greater arterial circle of iris, major arterial circle of irisArteriengeflecht der Cochlea: arterial network of cochleadorsales Arteriengeflecht der Handwurzel: dorsal carpal arch, posterior carpal archArteriengeflecht des Ellbogengelenks: articular cubital network/rete, articular network/rete of elbow(joint)Arteriengeflecht des Ellenbogengelenks: articular cubital rete, articular rete of elbow (joint), articular cubital network, articular network of elbow (joint)Arteriengeflecht des Handwurzelrckens: dorsal carpal network, dorsal carpal arch, posterior carpal arch,dorsal carpal reteArteriengeflecht des Innenknchels: medial malleolarnetwork, medial malleolar reteinneres Arteriengeflecht der Iris: lesser arterial circleof iris, minor arterial circle of irisArteriengeflecht am Kalkaneus: calcaneal network/rete, network of heelArteriengeflecht des Kniegelenks: articular network of ofknee, articular rete of kneeArteriengeflecht der Kniescheibe: rete of patella, arterial rete of patella, arterial network of patellapalmares Arteriengeflecht der Handwurzel: anteriorcarpal arch, palmar carpal archpatellres Arteriengeflecht: arterial network of patella,rete of patella, arterial rete of patella, patellar network/retepupillres Arteriengeflecht der Iris: lesser arterial circle of iris, minor arterial circle of irisziliars Arteriengeflecht der Iris: greater arterial circleof iris, major arterial circle of irisArteriolaArtelrilenlgerlusch nt: arterial murmurArtelrilenlinltilma f: f: m: arterial catheterArtelrilenlklamlmer f: hemostat, compressor, compressoriumArtelrilenlklemlme f: hemostat, compressor, compressoriumArtelrilenlkrampf m: arteriospasm, spasm of an arteryArtelrilenllapfen m: arterial flapArtelrilenlnaht f: suture of an artery, arteriorrhaphy, arterial repairArtelrilenlnetz nt: arterial network, arterial rete, arterialrete mirabileArteriennetz des Akromions: acromial rete/networkArteriennetz am Fersenbein: calcaneal rete, calcanealnetworkArteriennetz am Kalkaneus: calcaneal rete, calcanealnetworkArteriennetz des Auenknchels: lateral malleolarnetwork, lateral malleolar reteueres Arteriennetz der Iris: greater arterial circle ofiris, major arterial circle of irisArteriennetz der Cochlea: arterial network of cochleadorsales Arteriennetz der Handwurzel: dorsal carpalarch, posterior carpal archArteriennetz des Ellbogengelenks: articular cubitalnetwork/rete, articular network/rete of elbow (joint)Arteriennetz des Ellenbogengelenks: articular cubitalnetwork/rete, articular network/rete of elbow (joint)Arteriennetz des Handwurzelrckens: dorsal carpalnetwork/reteArteriennetz des Innenknchels: medial malleolarnetwork, medial malleolar reteinneres Arteriennetz der Iris: lesser arterial circle of iris, minor arterial circle of irisArteriennetz des Kniegelenks: articular network of ofknee, articular rete of kneepalmares Arteriennetz der Handwurzel: anterior carpal arch, palmar carpal archpatellres Arteriennetz: arterial network of patella, rete of patella, arterial rete of patella, patellar network/retepupillres Arteriennetz der Iris: lesser arterial circle ofiris, minor arterial circle of irisziliars Arteriennetz der Iris: greater arterial circle ofiris, major arterial circle of irisArtelrilenlplastik f: arterioplastyArtelrilenlpuls m: arterial f: arterial f: arteriectomy, arterectomyArtelrilenlriiss m: arteriorrhaxis, rupture of an arteryArtelrilenlruptur f: arteriorrhaxis, rupture of an arteryArtelrilenlsklelrolse f: Arteriosklerosezerebrale Arteriosklerose: cerebral adj: m: arteriolithArtelrilenlstelnolse f: arteriostenosis, adj: relating to or caused by arteriostenosis, f: f: arteriectomy, arterectomyArtelrilenlthromlbus m: arterial thrombusArtelrilenlverlkalkung f: f: f: arterial trauma, arterial injuryArtelrilenlverlschluss m: arterial occlusionakuter Arterienverschluss: acute arterial occlusionakuter peripherer Arterienverschluss: akuter Arterienverschlussaortoiliakaler Arterienverschluss: aortoiliacal occlusionsupraaortaler Arterienverschluss: aortic arch syndromeArtelrilenlverlsorgung, olupelraltilve f: arterial repairArtelrilenlitis f, pl -tilden: inflammation of an artery, arteritisArteriitis allergica cutis: leukocytoclastic vasculitis,leukocytoclastic angiitis, hypersensitivity vasculitis,allergic vasculitis, localized visceral arteritisArteriitis brachiocephalica: Martorells syndrome,Takayasmus arteritis, Takayasmus syndrome, Takayasmusdisease, pulseless disease, reversed coarctation, brachiocephalic arteritisArteriitis cranialis: Hortons arteritis, Hortons disease,Hortons syndrome, giant-cell arteritis, granulomatousarteritis, cranial arteritis, temporal arteritisArteriitis gigantocellularis: Arteriitis cranialisinfantile Arteriitis: infantile arteritisArteriitis luetica:

arthralgic Arthralgie f: arthresthesia, joint sensation, articular sensation, joint sensibility, articular sensibility Arthrektomie f: arthrectomy, excision of a joint Arthritiker m: arthritic Arthritikerin f: arthritic Arthrititis f, pl -tiden: inflammation of a joint, arthritis, articular rheumatism Arthrititis acuta: acute arthritis Akne-assoziierte Arthritis: acne-associated arthritis akute Arthritis: acute arthritis akuteitrige Arthritis: Arthritis purulenta Arthritis allergica: allergic arthritis allergische Arthritis: allergic arthritis atrophische Arthritis: atrophic arthritis Chlamydien-induzierte Arthritis: chlamydial arthritis Arthritis chronica: chronic arthritis Arthritis chronica villosa: chronic villous arthritis, dry joint, fringe joint chronische Arthritis: chronic arthritis chronisch-villöse Arthritis: chronic villous arthritis, dry joint, fringe joint Arthritis dysenterica: Reiters disease, Reiters syndrome, Fiessinger-Leroy-Reiter syndrome eitrige Arthritis: Arthritis purulenta Arthritis mit Ergussbildung: exudative arthritis Arthritis exsudativa: exudative arthritis exsudative Arthritis: exudative arthritis Arthritis einer Extremität: acroarthritis Arthritis fugax: concomitant arthritis Arthritis fungosa: fungal arthritis, mycotic arthritis, fungous synovitis Arthritis gonorrhoeica: gonorrhoeal arthritis, blennorrhagic arthritis, gonococcal arthritis gonorrhoeische Arthritis: Arthritis gonorrhoeica hemophile Arthritis: hemophilic arthropathy, hemophilic joint, hemophilic arthritis, bleeders joint Arthropathie juvenile chronische Arthritis: juvenile rheumatoid arthritis, juvenile chronic arthritis Arthritis mutilans: arthritis mutilans neoplastische Arthritis: neoplastic arthritis Arthritis obliterans: Winiwarter-Buerger disease, Buerger's disease, thromboangiitis obliterans oligoarthritische Arthritis: oligoarthritic Arthritis: paraneoplastische Arthritis: paraneoplastic arthritis postinfektive Arthritis: reactive arthritis, postinfectious arthritis post-traumatische Arthritis: post-traumatic arthritis Arthritis psoriatica: Arthropathia psoriatica Arthritis purulenta: (acute) suppurative arthritis, purulent synovitis, bacterial arthritis, septic arthritis, suppurative arthritis/synovitis reaktive Arthritis: reactive arthritis, postinfectious arthritis rheumatoide Arthritis: rheumatoid arthritis, atrophic arthritis, osseous rheumatism, chronic articular rheumatism, Beauvais disease, chronic inflammatory arthritis, proliferative arthritis, rheumatoid arthritis, rheumatic gout septische Arthritis: septic arthritis, bacterial arthritis Arthritis sicca: arthritis sicca subakute Arthritis: subacute arthritis Arthritis syphilitica: syphilitic arthritis traumatische Arthritis: post-traumatic arthritis Arthritis tuberculosa: tuberculous arthritis, tuberculous osteoarthritis Arthritis urica: gouty arthritis, uratic arthritis, urarthritis venerische Arthritis: Reiters syndrome, Reiters disease, venereal arthritis, Fiessinger-Leroy-Reiter syndrome Arthritis villonodularis pigmentosa: pigmented villonodular synovitis, chronic hemorrhagic villous synovitis, tendinous xanthoma, pigmented villonodular arthritis Arthritis villosa chronica: chronic villous arthritis, dry joint, fringe joint arthritisch adj: relating to arthritis, arthritic, arthritical Arthro-, arthro- prf.: 1 [Propecia kaufen deutschland](#). [L157] Glukose-6-Phosphat-Dehydrogenase-Mangel Weltweit eine der häufigsten Erbkrankheiten, die Millionen Menschen betrifft. Die auch als Favismus bezeichnete Erkrankung ist am häufigsten in Afrika, Asien und den Mittelmeerländern (z.B. Kasten und Therapie Therapieziel ist die Überbrückung der akuten Phase der Panzytopenie und die Restauration einer normalen Knochenmarkfunktion: Supportive Therapie mit (gefilterten) Blut- und Thrombozytentransfusionen (vor Knochenmarktransplantation sollte möglichst wenig transfundiert werden) Immunsuppression z.B. [Online canadian pharmacy discount code](#). Schmerzen hatte, und baten unserer Zitierten, mit einer Schmerztherapie zu beginnen, auch wenn die 168 Was macht die Pflege von demenzkranken alten Menschen so schwierig? Schmerzursache nicht bekannt war. Ob daraus eine dramatische Situation oder nur eine kleine, vorübergehende Strömung wird, hängt von der Person ab, die jetzt auf Frau L. Sind die myeloischen Stammzellen betroffen, so wird die Erkrankung als myeloproliferative Erkrankung bezeichnet (). Einteilung Die Leukämien werden unterschieden nach Entstehungsgeschwindigkeit: akut oder chronisch Zelltyp: lymphatische Leukämien: betroffen sind Vorstufen der lymphatischen Reihe myeloische Leukämien: betroffen sind Vorstufen der myeloischen Reihe (aus der auch Erythrozyten und Megakaryozyten hervorgehen) Leukozytenzahl im Blut (Abb. Manchmal wird die letztgenannte Form auch mit dem Begriff pure red cell aplasia (reine Erythrozytenanämie) bezeichnet und damit von der aplastischen Anämie abgegrenzt, bei der alle

Zelllinien betroffen sind. Bei der aplastischen Anämie handelt es sich also entgegen der etwas unglücklichen Bezeichnung nicht um eine isolierte Anämie, sondern um eine mit Panzytopenie einhergehende Bildungsstörung (Panmyelopathie) des Knochenmarks. Bei einem Hkt > 55 % der Schwellenwert für das Auftreten einer Zyanose von 5 g/dl an desoxygeniertem Hämoglobin wird bei Polyzythmie rascher, d prednisolon 50 mg rezeptfrei kaufen. Validation will nichts anderes sein als eine spezifische Kommunikationsmethode, die den Betroffenen dabei hilft, ihr Leben zu ihren eigenen Konditionen zu einem guten, würdigen Ende zu bringen generic pharmacy philippines careers.
